DALLAS MUSEUM OF NATURAL HISTORY  
PRIVATIZATION PLAN FOR CITY OF DALLAS EMPLOYEES

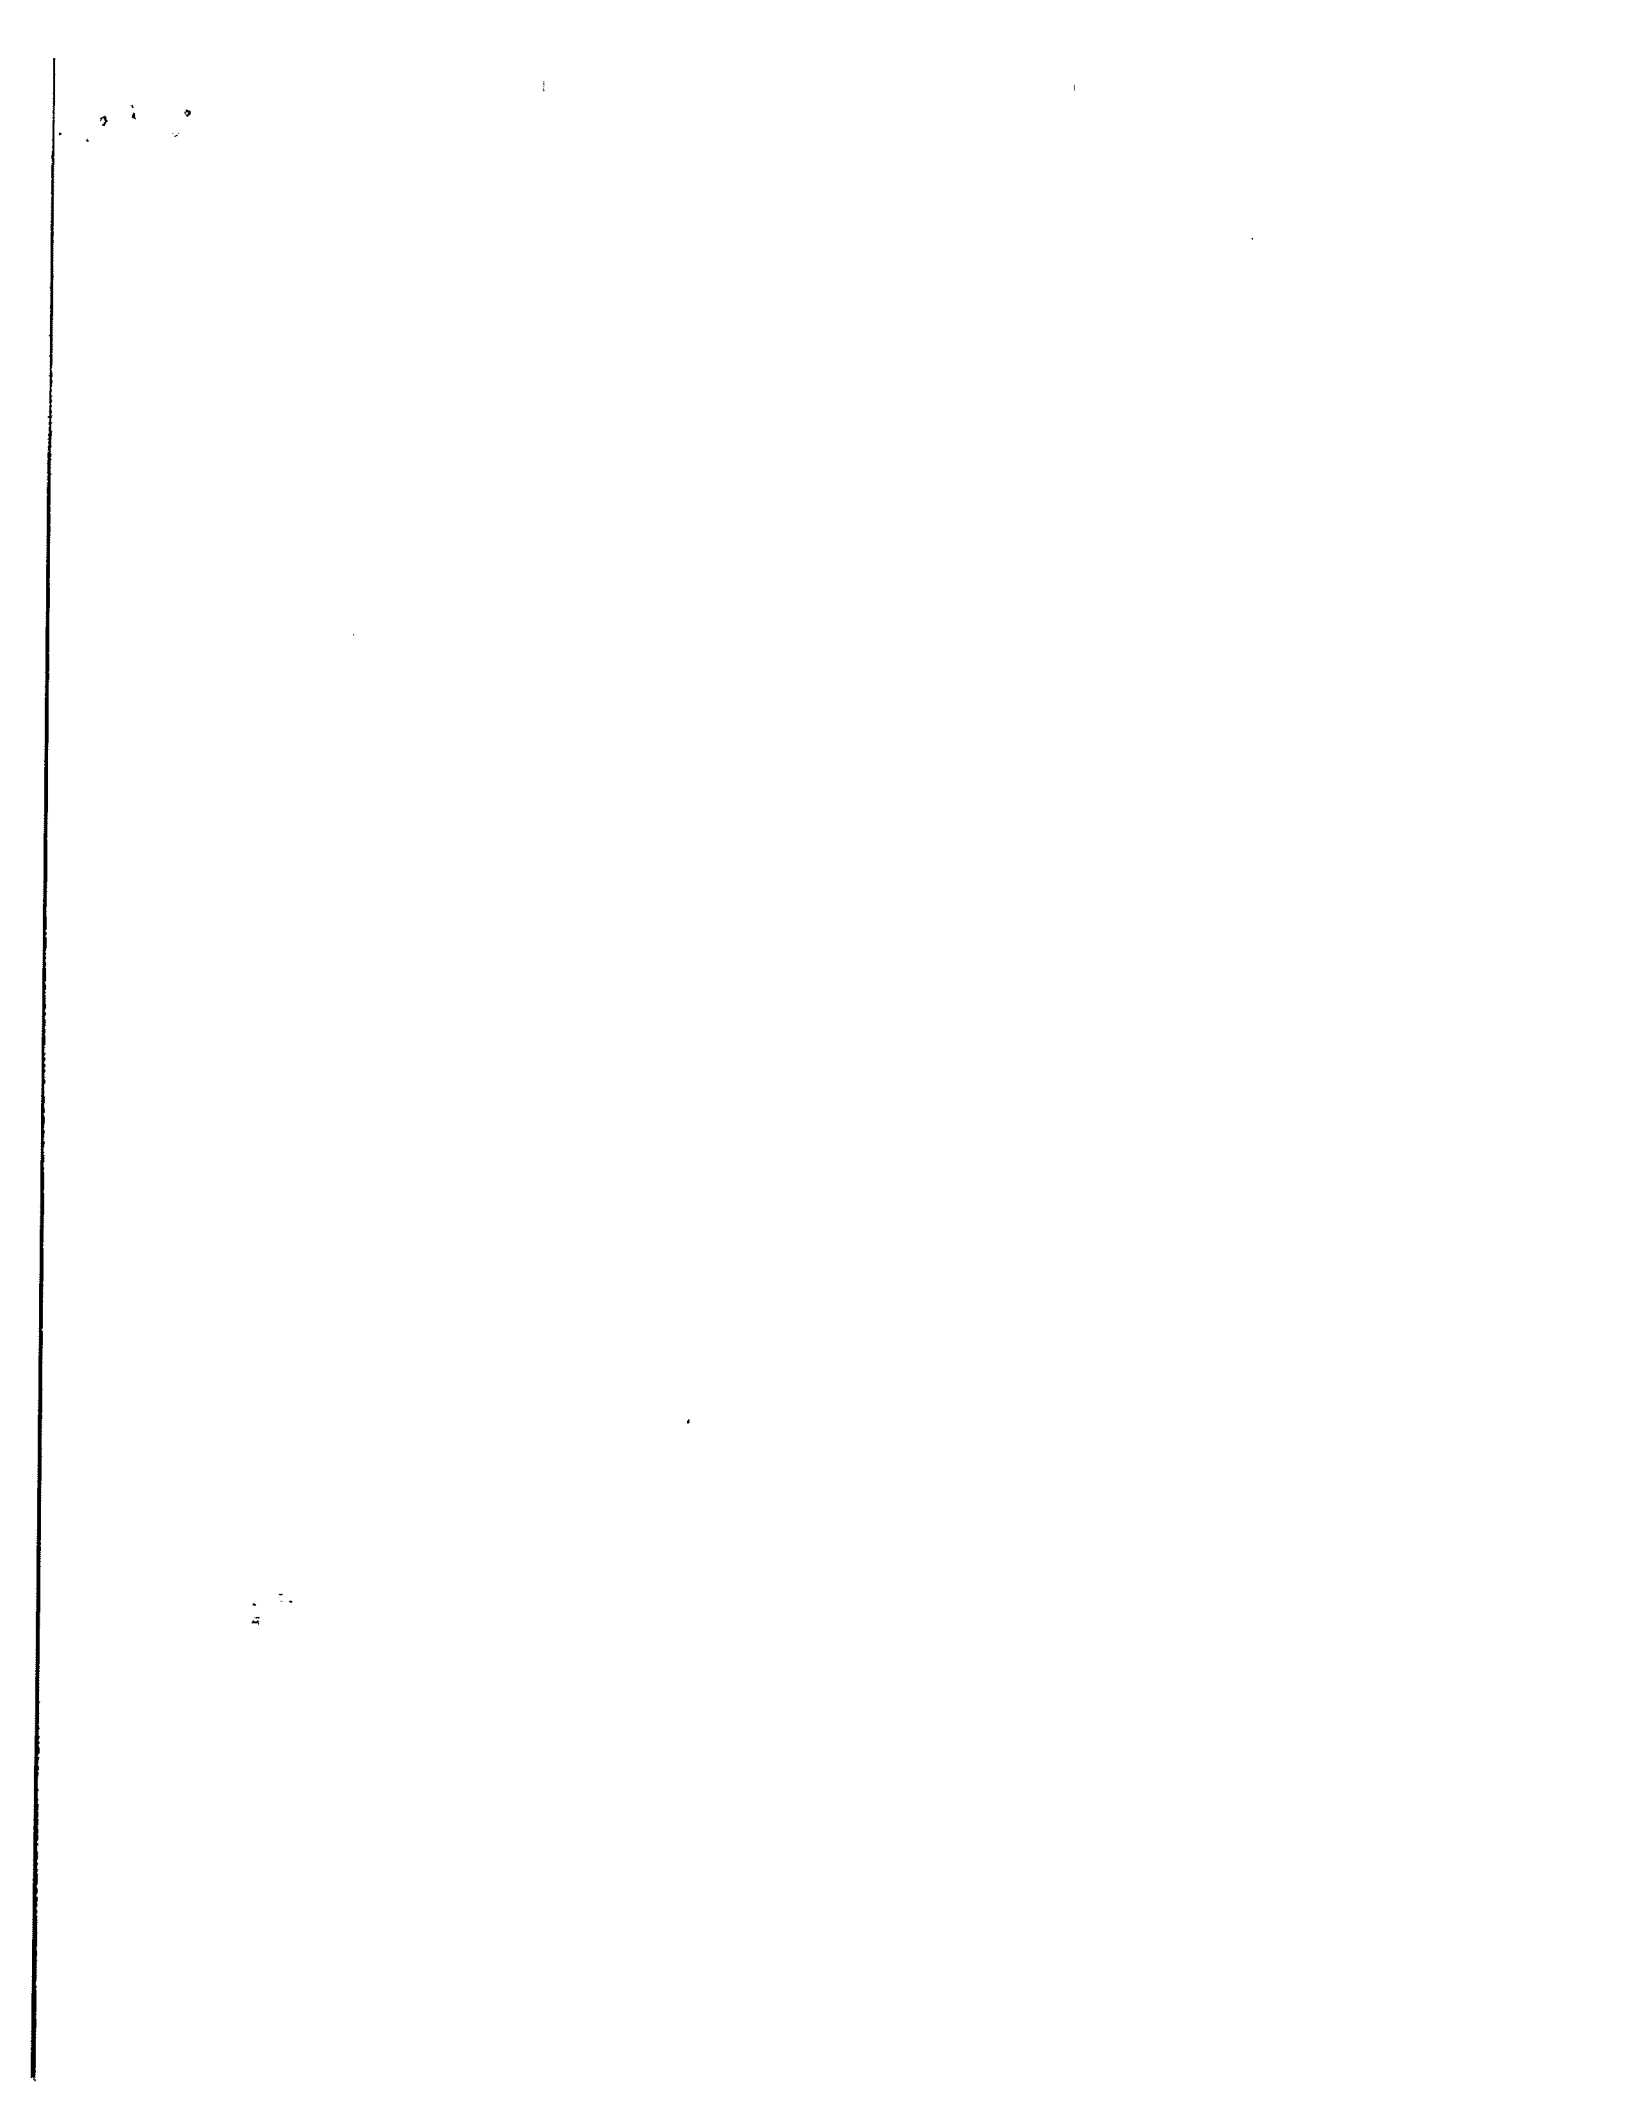

Revised May 25, 1993

**I. OBJECTIVES**

The objective of this plan is to transfer the Museum's city employees from the city payroll to the Museum Association payroll. After the transfer, the Museum Association would have supervisory authority over all Museum employees. The plan also seeks to give all employees who do not want to transfer to the Association the opportunity to find another position in the City of Dallas at a comparable grade and compensation level. The basic mechanism for achieving this objective will be to use a RIF procedure to reduce the city work force. The RIF procedure will provide a clean break from the City and employees will receive all the appropriate payments and benefits to which a city employee is entitled upon termination or retirement. After the employees have been RIF'd, they will then be hired by the Museum Association with a comparable wage and benefit package.

**II. CURRENT STATUS:**

The City of Dallas currently supports seventeen staff positions at the Dallas Museum of Natural History. As of May 25, twelve positions were filled with full time Museum employees, one position was filled by an employee working at Cultural Affairs, three positions were filled with temporary employees, and one position was vacant. One of the full time employees plans to retire on June 22. The plan will not deal with temporary employees although these employees may be offered positions with the Museum after privatization.

### III. EMPLOYEE CATEGORIES

The current full time employees can be divided into two basic groups based on their proximity to retirement. The privatization plan recommends a different transition policy for each of these groups.

**GROUP A - SENIOR EMPLOYEES:** This group is comprised of employees who are within six years of retirement. It is in the interest of members of this group to remain as City employees until they qualify for their full retirement benefits or to "buy forward" to their earliest retirement date. They could be economically penalized if they left the City's employment before their retirement date. Three of these four employees will qualify for retirement in 1993 and one plans to retire by June 22. The other employee will qualify for retirement in 1995 under the new 78 rule.

**GROUP B - 6+ YEARS TO RETIREMENT :** This group is comprised of employees who are not within six years of retirement. This group would not suffer any economic hardship by transferring to the Association.

### IV. TRANSFER POLICIES:

#### GROUP A - SENIOR EMPLOYEES.

Employees who are eligible for retirement on the effective date of privatization would retire from the City and then be rehired by the Association at a comparable compensation/benefit level. The one employee who is within five years of retirement but is not eligible for retirement on the effective date of privatization would remain as City Employees until he is eligible for retirement at which point he would retire from the City and be hired by the Association .

#### GROUP B - 6+ YEARS TO RETIREMENT:

Employees in this category who are currently working at the Museum would be RIF'd on the date privatization becomes effective and then be rehired by the Association at a comparable wage and benefit level. They would receive a notice of the RIF 45 days prior to the

effective date of privatization. During this 45 day period, employees would need to decide whether or not they wanted to become employees of the Association. If an employee chooses not to join the Association, then the City's Personnel Department would offer out-placement assistance to the employee, including resume writing, CARE counseling and job placement. Although the Personnel Office has been very successful in placing employees within the City, the employee must take the initiative to search for a job and there is no guarantee that a position would be found. The Association is committed to hiring all current Museum employees or providing some equitable arrangement for those employees who choose not to join the Association.

All employees in this group would receive the same separation benefits as any other city employee who has been RIF'd including payment of all accumulated vacation. Since none of these employees qualify for payment of accumulated sick leave, the Association would provide accumulated sick leave time equal to a still to be determined percentage of their sick leave time at the time of privatization. Their years of service as city employees at the Museum would be used in determining any Association benefits that are tied to years of service.

## V. OTHER ISSUES

A. INFORMATION FOR EMPLOYEES: So that city employees can make an informed decision about transferring to the Association, the Association would provide city employees with the following information prior to the RIF process:

- \*Association benefit package
- \*Association- personnel- policies and procedures
- \*Proposed compensation package for each employee
- \*Comparison of City and Association packages

Staff from the personnel office would also meet with each employee on an individual basis to discuss benefits to which the employee is entitled, pension plan options, and opportunities to transfer to other departments within the City.

## **VI. CONCLUSION**

This proposal provides sufficient protection for all employees. It enables employees to join the Association at comparable wages and benefits if they so desire. It protects the retirement benefits of those employees who are close to retirement and who would be penalized if they left the city before they met their eligibility requirements. It provides employees who do not wish to transfer to the Association with assistance in finding another job either within the city or elsewhere. The plan depends upon 1. the commitment of the Association to hire city employees at a comparable compensation and benefit level, 2. the commitment of the city to make a good faith effort to assist in the placement of employees who are not going to join the Association in city jobs at a comparable grade and compensation level and 3. the commitment of the city to maintain current levels of funding for the Museum.
